Section 2 - The Quarterly Report Explained

The Corporate Business Plans defines the facilities, services, programs and projects the Shire will undertake to deliver the community priorities that are detailed in the adopted Community Strategic Plan. Appended to the plan is a financial forecast for the next 4 years taken from the long-term financial plan.

Quarterly Report is designed to provide information on the progress and milestones of key projects in the Shire's Corporate Business Plan 2021 – 2025.

The Strategic directions in the plan provides the basis for quarterly reporting using a simple traffic light system. This information will be shared with Council and the Community on a quarterly basis via an OCM Item and the Shire's website.

The Corporate Business Plan is reviewed and updated annually to reflect any changes to the long-term financial plan, service levels and to include any new programs, projects or strategic initiatives.

Represents years the priority is to be executed.
